

# Colorama Time

What better way to celebrate the recent designation of September being National Wilderness Month than with Colorama? The President made the proclamation in honor of President Lyndon B. Johnson signing the Wilderness Act into law in September 1964, recognizing places "where the earth and its community of life are untrammelled by man, where man himself is a visitor who does not remain."

Luckily, here in the Northwoods we don't need to go far to experience wilderness, just step out your door. Look to the Border Happenings on page 3 for the many activities to enjoy this Colorama season. Now get out there, in the wild!

## Nicolet College Presents

One of the first presentations of Nicolet College's 2013-14 Creative Arts Series will be *Climbing Beyond Our Limits* with Lori Schneider on Monday, September 23, at 7:30 pm. Join this inspiring mountaineer for the free presentation as she shares her experiences climbing the Seven Summits, the highest peak on each continent, and her ultimate quest – her 2009 successful summit of Mt. Everest, becoming the first person with multiple sclerosis to accomplish this feat. Her message is one of hope, leadership, big dreams, and self-empowerment.

The Creative Arts Series consists of three parts: Nicolet Live!, which includes the theater events; the Nicolet Art Gallery, featuring numerous exhibits; and the Library Series, featuring technology-oriented and literary events.

National-caliber comedy, numerous musical groups and plays, art exhibits, and vicarious trips to Cambodia, Pakistan, and the tallest mountains in the world are just a few of the upcoming presentations in Nicolet College's 2013-14 Creative Arts Series. In all, the season will pack in nearly 50 events, most of them free. "We're looking at a great season with a wide variety of performances and events that will appeal to just about every taste," said Jim Nuttall, Nicolet College Theatre director. "There really is something for everyone."

To receive the 2013-14 Creative Arts Series brochure, which lists all events, call the college at (715) 365-4512 or 1-800-544-3039, ext. 4512, TDD(715) 365-4448. To sign up to receive the Creative Arts electronic newsletter via email, visit [www.nicoletlive.com](http://www.nicoletlive.com). The entire Creative Arts Series is also posted online at [www.nicoletcollege.edu](http://www.nicoletcollege.edu) with Nicolet Live! events also available at [www.nicoletlive.com](http://www.nicoletlive.com).

## Memories of a Small Town Boy

Wally Wenzel (local author and native of Phelps, WI) and his family have put together a wonderful 1930s and 40s memoir from Wally's childhood: "Memories of a Small Town Boy". The book is now available at the Phelps Public Library for \$14.99 with all proceeds graciously donated by Wally's family to the Library.

From the back cover: *It was a near-perfect place for a boy to live, this quiet, north woods community surrounded by lakes, streams and woodlands. The Great Depression seemed a world away to children growing up in the small town of Phelps in far northern Wisconsin. While life was hard and luxuries rare, pleasures were simple and abundant and family took priority to all.*

*Step back to a time of wood-fired cook stoves, a dog named Cubby, when slingshots and sleds and marbles and rolling tires down a hill were considered entertainment. When the family car was a Model A and yes, the doctor made house calls. Let Wally Wenzel take you back as he shares with you his rich and engaging "Memories of a Small Town Boy."*

For more information, please call the library at 715-545-2887 or visit our website at [phelps.wislib.org](http://phelps.wislib.org).

## Melody with HeART Gala

Some actors sing to the rafters, some actors speak dramatically with gusto, but Benn Gober touches people's hearts with gestures, expression, and movement. Benn will add an extra air of excitement to an already fun-filled evening as he performs as a mime for the gala fundraiser, *Melody with HeART* at the Gateway Lodge Thursday, September 26th.

"Melody with HeArt" is a combined effort benefiting the Land O' Lakes Artisans Inc (LOLA) and the Northwoods Singers. A gourmet dinner, catered by Lanny's Fireside Restaurant of Conover, will be enhanced by music from the 30's, 40's, 50's and 60's performed by the Northwoods Singers. Musical art will be joined by visual art, as specially commissioned fine art works by Northwoods area artists will be auctioned. Emcee for the evening will be Alex Marciniak, of Michigan's Upper Peninsula. The event is underwritten by Headwaters State Bank, Land O' Lakes.

Gober, of Eagle River, and a Northwoods Singers Scholarship Student of Dr. Pamalyn Lee, is a senior at Northland Pines High School. (Dr. Lee is the highly esteemed director of the Northwoods Singers.) He has been intensely involved in theater from a young age, taking advantage of every opportunity to perform in the area. He has had roles in Northland Pines High School productions, the Black and Decker Performing Arts Company, the Three Lakes Theatre Company, the Northwoods Community The-

atre, and Tommy O's Playhouse in Hazelhurst. Last fall Gober received an Outstanding Actor Award at WHFSA State Theatre Festival. Most recently he attended Music Theatre Camp at Shell Lake Arts Center. He intends to pursue theater in his college career as well.

"I love singing and using my voice as I continue to take voice

lessons with Dr. Pam Lee, but every once in a while, I get the chance to perform without using my voice, with miming. I love the positive responses of joy and laughter that I have gotten at previous mime gigs. I am so excited to be performing at *Melody with HeART*," the young thespian said.

Tickets for *Melody with HeART* are \$75 each and may be purchased by calling Mary Dickson at 906-366-0325, or contacting Marydickson343@yahoo.com. Seating is limited, so patrons are invited to contact Dickson as soon as possible.

## NPBS Science Teacher - Jennifer Nickel - Appointed to Professional Standards Council

EAGLE RIVER, WI - Northland Pines School District is proud to announce that Jennifer Nickel, a high school science teacher, has been appointed to the Professional Standards Council (PSC) as the middle school/high school teacher representative of the Wisconsin Education Association Council (WEAC). Pending Wisconsin Senate confirmation, her term will continue through June 30, 2015. Northland Pines District Administrator Dr. Mike Richie stated, "Jennifer Nickel is a great educator in our school district and it is to her credit that she is recognized across the state and has been selected to be on the Professional Standard Council. We always encourage our staff to become involved in local, regional, state and national educational initiatives." NPBS Principal Jim Brewer also stated, "Jennifer Nickel is a very

dynamic instructor who is extremely caring about all students. She is a great ambassador for Northland Pines and will serve the State in a knowledgeable and dignified manner."

The members of the PSC are appointed by Tony Evers, the State Superintendent, and are considered agency officials of the Department of Public Instruction. Council members are recommended by education labor unions, professional organizations and institutions of higher education. The primary role of the PSC is to advise the State Superintendent by making recommendations on a variety of issues relating to teaching in Wisconsin.

The purpose of the PSC is to act in an advisory capacity, to ensure the quality of teaching by recommending to the state superintendent a set of standards regarding

licensure and evaluation of teachers, evaluation and approval of teacher education programs, the status of teaching in Wisconsin, school board practices to develop effective teaching and peer mentoring programs.

Jennifer is one of 19 members who will assist and advise the state superintendent on improving teacher preparation, licensure and regulation. She is an excellent teacher here at Northland Pines School District and we are proud to have her be a member of the PSC.

Specific information regarding the framework of the PSC can be found at Wis. Admin Code PI 34.36.

# Cranberries! Cranberries! Cranberries!!

The Eagle River Area Chamber of Commerce & Visitors Center invites you to join us for the celebration of the 34th Annual Cranberry Fest - a fun-filled family event for all ages with lots of activities to enjoy. Festival Grounds are open from 9:00am-4:00pm on Saturday, October 5th and 9:00am-3:00pm on Sunday, October 6th, 2013. A free shuttle bus will be available on Saturday from 9:00am-5:00pm and on Sunday from 10:00am-2:00pm to take you throughout Eagle River to all the different activities. Shuttle busses run approximately every 20-30 minutes. Free parking is available at the Eagle River Derby Track.

**Activities include:**

- The availability of fresh premium, high quality, hand sorted, select cranberries and craisins™ for you to purchase and take home to create your own wonderful cranberry flavored foods. (On

sale next to the Holiday Gas Station at the corner of Railroad St. and Hwy 70; at the Eagle River Area Chamber of Commerce and Visitors Center - 201 N. Railroad; at the Vilas County Fairgrounds - Hwy 70W; and in downtown Eagle River.)

- Tasting Wisconsin's No. 1 fruit crop - cranberries - made into an array of delicious food and drink items such as juice, soda, beer, meatballs, fritters, pies, breads, chutney and more.

- **Pancake breakfast** - served on festival grounds in the large food tent from 7-10am. Come start your day with your choice of regular or cranberry pancakes, pork sausage and a drink.

- Support the Make-A-Wish Foundation by trying a slice of the **World's Largest Cranberry Cheesecake** - over 100 feet in length. All proceeds will assist in granting wishes for children who

have life threatening illnesses in our area.

- The Ministry Health Care **Cranberry Fitness Events** - a fitness walk and run. For more information on how to participate in the Fitness Events, call the Eagle River Chamber of Commerce & Visitors Center for a registration form at 1-800-359-6315 or 1-715-479-6400.

- Join us for a **Cranberry Marsh and Winery Tour** of Three Lakes Winery - famous for their Cranberry Wines. Reservations are requested and tours leave from the Eagle Chamber of Commerce and Visitors Center at 201 N. Railroad St. in Eagle River starting Thursday, October 3rd and go through Sunday, October 6th. Tours are \$8.00 for adults and \$5.00 for children 12 and under. Children 3 and under are free if they sit on an adult's lap. To learn more about scheduled tour times and to make your reservation call the Eagle River Chamber of Commerce & Visitors Center at 1-800-359-6315 or 1-715-479-6400.

- Cranberry Fest features over **300 arts and crafts vendors** who will be showcasing home-created items made by the sellers themselves. And what a variety of items - there is something for everyone.

After visiting the festivities on

the festival grounds don't forget to enjoy all the activities located in downtown Eagle River and at the Eagle River Snowmobile Derby Track.

- **Downtown Activities** (Saturday only) **include:** book fair at the Olson Memorial Library, an antique market, farmers market, fresh cranberry and craisin™ sales, Lake Country Weaver and Fiber Artists show and sale, hot food and beverages, musical entertainment, and a luncheon at the First Congregational Church.

- **Activities at the Derby Track include:** The Cranberry Fest Mar-

ket Place featuring buy/sell items, flea market items and much more. There is free parking with shuttle bus service to Cranberry Fest grounds and downtown Eagle River on Saturday and Sunday from the Derby Track.

For a complete schedule of activities and for more information contact the Eagle River Chamber of Commerce & Visitors Center at 1-800-359-6315 or 1-715-479-6400 and ask for the Cranberry Country Crier, Marsh and Winery Tour information or the Ministry Health Care Cranberry Fitness Weekend brochure.

## Volunteers Needed

Cranberry Fest is a wonderful family event held for the celebration of the #1 fruit production in Wisconsin - the festival will take place on Oct. 5th, 9:00am-4:00pm, and Oct. 6th, 9:00am-3:00pm. As a community wide event, volunteers are needed during the entire weekend. Activities to get involved in include: scooping fresh cranberries, assisting in the bakery, working in the souvenirs and cranberry food products tent, set-up and clean-up, helping keep the festival

grounds clean, and much more. Be a cranberry person and share the joy of the festival with our visitors. If you are interested in volunteering, call Amy Young - Cranberry Fest Volunteer Coordinator at 715-479-1794 ext. 2702 or Kim Emerson - Events Coordinator of the Eagle River Area Chamber of Commerce and Visitors Center at 715-479-6400 and they will get you signed up to help. It's the Volunteers who really make Cranberry Fest a great time for everyone.

## Community Flu Shot Clinic Planned

IRONWOOD – As the 2013-14 flu season looms, local health partners are once again planning a community vaccination clinic.

Western U.P. Health Department, Aspirus Grand View Hospital, Iron County Wisconsin Health Department, and the Gogebic Community College School of Nursing will provide flu shots at a fast, convenient vaccination clinic, Saturday September 21st from 9-11am at the college's Lindquist Center Gymnasium.

"When residents attend this clinic they not only receive their annual flu shot, but they also assist local healthcare partners with exercising emergency plans," said Zona Wick, the Iron County

health officer. "The collaboration of three health care organizations as well as local nursing students offers a quick and efficient vaccination experience."

Annual flu shots are recommended for everyone 6 months and older. Certain groups including: young children, those over the age of 65, pregnant women, and individuals with asthma, diabetes, and chronic lung conditions are at greatest risk of flu related complications.

"Getting an annual flu vaccine is still the single best strategy to prevent flu and to stay healthy during the coming flu season. Vaccination protects you, your family and your neighbors be-

cause when more of us are vaccinated, less flu circulates within the community," said Western U.P. Health Department Medical Director, Dr. Terry Frankovich.

Flu Shots will cost \$25 per person, with no charge to clients who present a current Medicare or Medicaid card. Many children qualify for free or reduced rates through the Vaccines for Children program. Those with private insurance will be given receipts and billing forms to submit for reimbursement. Drive thru service will be available for those with limited mobility.

For more information, call the health department in Bessemer at 906-667-0200.

## Get Your Creative Hats On

Decorate your Land O' Lakes business or residence for fall, build a scarecrow, and enter to win a prize for the best decorations/scarecrow.

The decorating and scarecrows should be finished and on display by mid-September, as judging will be September 27th. The winners will be announced and prizes given out at the Colorama dinner at St Albert's Catholic Church on Sunday, September 29th.

## National Public Lands Day

September 28th marks the 20th anniversary of National Public Lands Day—the nation's largest, single-day volunteer effort for public lands! The Ottawa National Forest is proud to be a participant in this national effort and will be sponsoring a work day at the Ge-Che Cross Country Trail near Lake Ottawa Campground in Stambaugh, Michigan.

The Ge-Che trail project consists of getting this trail system ready for the winter ski season (yes, win-

ter is on its way!) The workday will consist of clearing the trail of fallen trees and debris, placing brush over illegal user-created access trails, brushing out some turn around points for the groomer, brushing overhanging limbs along the trail, and building sign posts to post the new trail maps.

National Public Lands Day began in 1994 with three federal agencies and 700 volunteers. Last year, 175,000 volunteers worked in more than 2,200 locations and in

every state. This year, seven federal agencies and many state and local lands participated in this annual day of caring for shared lands. NPLD events bring together thousands of volunteers from coast to coast to improve and restore the lands and facilities that Americans use for recreation, education, exer-

cise and just plain enjoyment.

WHEN: 9:00am-4:00pm (CST)

WHERE: Meet at the Lake Ottawa Day Use Building, 2832 Lake Ottawa Rd, Lake Ottawa Recreation Area, Stambaugh, MI 49935

or more info, contact Melissa Simpson, [midsimpson@fs.fed.us](mailto:midsimpson@fs.fed.us), 906-358-4017.

## It's Quilt Time

"Threads Through Time II," will be presented on Saturday, September 21, from 10:00-4:00 at Ely Memorial Church in Land O' Lakes. A fiber arts exhibit showing the creations of area fiber artists will be in the sanctuary. Sandy Hodgman will give presentations about old quilts at 11:00 and 2:00. There will be demonstrations of Hand Quilting (Carolyn McDermott), Primitive Rug Hooking (Eleanor Lapp), Spinning (Cheryl Zeh), Weaving (Mary Jackl), Wool Braided Rugs (Sharon Rehling), and Wool Penny Rugs (Shirley Battin). Old quilts may be brought for free verbal appraisals. A free will offering will be accepted.

# From the PASTOR'S WINDOW by Pastor Skip Pullen

*Skip Pullen is a pastor with Village Missions, serving the Upper Peninsula of Michigan at the Watersmeet Bible Church.*

Colorama is quickly approaching. I have already seen trees around our home changing and some leaves falling. Along with the fall weather come the annual task of raking and cleanup. It is important to rake up the debris, bark, and stones. Not only does it help the grass in the spring, but it helps avoid problems during the winter months when snow covers these items. I know we don't like to think about snow, but it will come. I recall a few years back how I didn't get to rake an area around the house. Later, when I was snowblowing a path, a stick jammed the blades. Instead of breaking the shear pin on the blade, it sheared the shaft pin. The damage took a bit of time to repair, including having to drive in a snowstorm to get parts. Taking care of things when they can be seen is so important.

This illustrates a spiritual principle in regards to sin. In the Old Testament, every so often a king or ruler would come along to help restore the worship of the Lord God and to call God's people to turn back to Him. Yet often it is followed with the phrase, "but the high places were not removed." What this means is that though the people feared the LORD, they still hadn't dealt with all the sin in their lives. They still worshipped other gods along with the LORD. They didn't do what was right in the sight of the LORD. Due to the fact that they left those places in their land, it wasn't long before the gods of this world crowded out the worship of the LORD. The writer of Hebrews wrote, "...let us lay aside every weight, and the sin which so easily ensnares us, and let us run with endurance the race that is set before us, looking unto Jesus, the Author and Finisher of our faith," (Heb. 12:1-2).

When we won't deal with our sins before the LORD, it has a way of tripping us up and ensnaring us at a future occasion. The Apostle Paul wanted believers to know "... that our old man was crucified with

Him, that the body of sin might be done away with, that we should no longer be slaves of sin. For he who has died has been freed from sin." (Romans 6:6-7). He also told believers that whomever we present ourselves to obey, we are that one's slaves, "whether of sin leading to death, or of obedience leading to righteousness". (See Romans 6:16).

The message of the New Covenant is not only the availability of forgiveness of sin, but freedom from sin's control. Sin no longer has to reign or dominate the life of a Christian. God desires to clean things up and set things in order in our lives. Have you called upon the Lord Jesus Christ, trusting in His sacrifice at Calvary as satisfying the penalty for your sin? Are you walking in the newness of life that is available in Christ Jesus? Is there any place in your life right now that is ensnaring you that you need to choose to lay aside? Know that the LORD wants to forgive you and set you free from all your sin. He desires each one to turn to Him in faith, believing on Jesus Christ. Why not talk to Him about it right now.

*Know that I'm praying for you.*

## Conover Church Welcomes Pastor

It is with great enthusiasm and excitement that Conover Church welcomes their new pastor, Dr. Andrew Schwenk. The Welcome Service where Dr. Schwenk will preach for the first time will be held on Sunday, October 6th at 9:30am. A free potluck luncheon will follow the service and everyone is welcome.

Dr. Schwenk comes to Conover Church from Hope Evangelical Free Church in Roscoe, IL where he has served as an elder for the past 9 years while operating a successful dental practice in a nearby town. During that time he answered a call from the Lord to leave his thriving dental practice and go into full time ministry. He received his Master of Divinity degree in Pastoral Ministries from Liberty Baptist Theological Seminary and then, together with his wife, Katie, and four children, Joshua 20, Kaitlyn 18, Noah 13, and Jonah 11, began praying for the Lord's leading. The Lord led him to a service at Conover Church in January while he was visiting here with a group of friends. Andrew stepped forward after the service to talk to one of the elders about their search for a new pastor. That conversation started the

process that resulted in the church unanimously calling him to their ministry after an 18 month search for a new pastor.

"We are very excited to have Dr. Schwenk serve as our new pastor.", commented Church Chairman, David Johnson. "Andrew is on fire for Christ and sharing his faith is a big part of his life. He is a strong preacher focused solidly on the word of God and being Bible centered has always been the foundation of our church. In addition, Andrew loves people and has a real shepherd's heart, a gift that is also shared by his wife, Katie, and their four children. Like our church family, Andrew also believes in the power of prayer and the importance of continually growing in faith. We truly believe that it is God's leading that has brought Dr. Andrew Schwenk and his family to Conover Church and we look forward to introducing them to the community."

Conover Evangelical Free Church is located at 3725 Hwy 45, Conover. Services are held at 9:30am Sunday mornings, everyone is welcome. For more info please call 715-479-4327 or visit the church website at [www.conoverchurch.com](http://www.conoverchurch.com).

## KEEPING YOU POSTED *from Karol Grasse*

On July 13, 2013 the Postal Service issued the New England Coastal Lighthouses Forever stamp. Solitary and mysterious, lighthouses have fascinated people for centuries. Celebrating the eternal appeal of these historic beacons, the U.S. Postal Service continues its popular series of lighthouse stamps. Sought after by collectors and beloved by the public, this sixth issuance in the series celebrates New England Coastal Lighthouses.

There are five different lighthouses from five states displayed in this particular stamp series. The Portland Head is Maine's oldest lighthouse and has been listed in the National Register of Historic Places since 1973. The Portsmouth Harbor was created in 1771 and was New Hampshire's first navigational aid. Point Judith's lighthouse was built in 1857 and was originally established in 1810 to guard a very dangerous part of the Atlantic Coast of Rhode Island. New London Harbor is Connecticut's oldest and tallest lighthouse that was originally established in 1761 and was financed by a lottery held by the Connecticut colonial legislature. The Boston Harbor lighthouse is the only remaining American lighthouse with a resident keeper employed by the federal government and was designated a National Historic Landmark in 1964.

The New England Coastal Lighthouses Forever Stamps are sold in self-adhesive panes of 20 stamps for \$9.20 and are available at your local post office. For more stamps and collectibles please visit [www.usps.com/stamps](http://www.usps.com/stamps).

Shown above: Celebrate—and share—five of these landmark lighthouses with a new set of notecards that features the original art created for the New England Coastal Lighthouses (Forever®) stamps. The front of each card features one of Koslow's vibrant paintings, and on the back, fun facts about each landmark adds interest. Each set includes ten blank cards (two of each design) and envelopes, plus ten New England Coastal Lighthouses (Forever®) stamps.

## HEALTH & WELLNESS • Energy Medicine, A New Frontier? by Dr. Ida Bergman Allen, DC

We have all heard about Einstein and his revolutionary equation  $E=MC^2$ . Initially when this was discovered, the connection to total health and healing was overlooked. However, thousands of years before this infamous equation came about, Ayurvedic medicine was utilizing a complex treatment system based on vibrational frequencies of energy, the Chinese were treating and healing people through acupuncture and meridians (also energy frequencies). And now, quantum physics has revealed to us that at the particle level, all matter is ENERGY. Let's break that down in simpler terms...ALL MATTER, that means EVERYTHING we now see as solid, is actually NOT SOLID. This is Energy Medicine, and it is the core of what Dr. Oz has boldly stated to the world as the next big frontier in health. This energetic or vibrational medicine encompasses the therapeutic use of both measurable energies, such as light and mag-

netism, and biofields such as energy centers (chakras), and energy pathways (meridians); which all work together with our biochemical and physiological machinery to create a living organism. We are certainly more than just a pile of DNA and cellular makeup. There's much more to us human beings than that! Energy Medicine is now cracking the code on our vibrational frequencies which is giving us an incredible insight on overall health and wellbeing. FINALLY!

New technology and research is showing ways to actually balance your body's vibrational frequencies which in turn allows you to achieve optimal physical health, and mind/body connectedness. This revealing new research shows us that disorganized energy waves can damage and even KILL human cells and that the TYPE of energy surging through our cells has a direct effect on our physical, mental, and emotional well-being. Why should we even care? Top institutions of medical science have proven that disease always starts off as a disorganized energy pat-

tern long before it shows up as a physical symptom. And the most recent research is showing that an alarming 95% of ALL health problems are a result of this disorganized energy. And it doesn't stop at health. Any happiness issues as well as success issues may also be determined by proper cellular energy.

I know it seems like a lot to comprehend or believe all at once. You may even be asking yourself why you haven't heard much about these amazing health and wellness breakthroughs. Although traditional medicine uses energy every day in their practices (MRIs, CT scans, and the like), it has only been the last few years that medical science has finally started utilizing the unlimited potential of ENERGY to enhance life at every level.

As Medical Doctor Richard Gerber states, "No more need to cut, burn and poison – the potential of energy to heal is limitless. The ultimate approach to healing is to remove the abnormalities at the energy level which led to the manifestation of illness in the first place. Using frequencies to heal malfunctioning organs creates the ultimate preventive medicine which will correct destructive energy imbalances before overt illnesses ever develop."

Another issue is this: In a study done by Harvard University in 2010, about 50% of all thoughts and emotions are NEGATIVE. So even if you think you are a positive person, you may be introduc-

ing and internalizing these disorganized energies without even knowing it. This not only damages your cellular makeup, but can cause your immune system to mis-fire or even shut down. With a faulty immune system, you are susceptible to physical disease, anxiety, insomnia, headaches, anger, fatigue, depression...actually ANY physical, mental, or emotional problem. If you've noticed that it has been difficult to reach your goals, to stay healthy, to exclude happiness, to enjoy your family, etc., you can be sure at least part of your issue (if not all of it) stems from this highly disorganized cellular energy.

I can truly say that I have been on a quest to find a way to help people completely optimize their health and wellbeing for as long as I can remember. I have been studying Energy Medicine for the past 20 years. With all of the new research on these specifics, I can now say with complete confidence that this is the medicine of the future. Health no longer needs to be a question of what physical issue you have. Enjoying a completely balanced life chemically, environmentally, physically, mentally, and emotionally is available to anyone who is ready to claim it. This makes me so excited! If you're ready to find out more, I would love to personally help you DEFY YOUR DNA with Energy Medicine! You can reach me for a consult at (715) 362-2300 or learn@educatingwellness.com.

## Celebrating 45 Years

Another summer is quickly fading and we are about to celebrate our 45 years in business as Sunrise Lodge. September 21, 1968 was the day we officially bought this resort.

Dick and I worked for the Atomic Energy Commission at Lemont, IL, back then. Having grown up on a dairy farm in Armada, MI, Dick realized he preferred working outside and for himself. We also felt that if we stayed with the current job we would get so ingrained in the retirement plan and other benefits that we would not want to leave. We both were conservative people so I am not sure how we got the courage to go ahead, leave a secure job and venture into the unknown. But we did. We thought we would give it 3-4 years and if it did not work out we could still move elsewhere. It took us six years to get anywhere close to the black. Dick was recruited to teach at the new college in Rhinelander, I took on a few jobs at other resorts, a radio show—whatever it took. We are still here.

Since those early days a lot has changed. Our season has extended from 4 months to a year around resort. The units went from pot belly stoves and open a window for air to central heat/air conditioning and fireplaces. The small bags of ice our young

son Philip used to deliver to the cottages were replaced with small refrigerators and now full kitchens. We rarely get a hand written inquiry in the mailbox, correspondence comes via internet. So many changes... and so many things have stayed the same... like Sunday night ball games and the cook outs, Wednesday pizza, excitement over the catch of the day whether it be 2 inches or 3 feet long.

Reminiscing about all this, I thought about how many of you I knew when you were babies and had the fortune to share your childhood, and now that of your children and grandchildren. We have shared many births, weddings, illnesses and deaths. You have made memories for our family. And here's to another 45 years with good friends and family.

## Events at the North Lakeland Discovery Center

On Thursday, September 19, the Discovery Center will be showing the film *Chasing Ice* from 7:00-8:30pm free of charge.

This film is the story of one man's mission to change the tide of history by gathering evidence of our changing planet. His beautiful videos compress years into seconds and capture ancient mountains of ice in motion as they disappear at a breathtaking rate. Donations appreciated.

Also don't forget the Free Drop-In Silent Sports Activities Series. On Friday, September 20, please join in for an exploratory paddle on Gresham Creek and Lakes from 1:00-3:00pm. Meet up at the bridge on Highway 51, one mile south of Highway H. Participants are encouraged to bring their own canoe or kayak; a limited number of kayaks will be available for participant use on a first-come basis.

Weekly silent sport activities will continue to be offered Fridays throughout the fall colors season. If you have suggestions for outings, please contact Maria Kopecky, Outdoor Recreation and Events Specialist, at [maria@discoverycenter.net](mailto:maria@discoverycenter.net).

The North Lakeland Discovery Center strives to connect silent sports enthusiasts with each other and with nature by sponsoring these weekly drop-in activities throughout the Manitowish Waters area. All ages and ability levels are welcome to participate, and no registration or fee is required to attend.

To receive announcements on these opportunities and much more, visit us online [www.DiscoveryCenter.net](http://www.DiscoveryCenter.net), find us on Facebook, or call (877) 543-2085. The Discovery Center is located on CTH W just 1.2 miles north of USH 51 in Manitowish Waters, WI.

## Boulder Junction Bicycle Trail Has Expanded

The Boulder Junction Chamber of Commerce and the Town of Boulder Junction are pleased to announce the much anticipated expansion of our paved bike and hike trail system. Trail users can now ride the trail north of Main Street along Highway M, 2.5 miles, to Dairymen's Road and west of Main Street along Highway K, 1.2 miles, to Camp Manito-wish YMCA.

This trail system is part of "The Heart of Vilas County Bike & Hike Trail System" which is now a combined 33 miles of paved trails running through Boulder Junction, Sayner and St. Germain. The paved trails are suitable for bicycles of all types, including road bikes, and are perfect for a family ride or hike. Additionally, paved trails are handicapped friendly and we welcome and encourage people who require wheelchairs or power wheelchairs.

For more info call the Boulder Junction Chamber at (715) 385-2400.

## Tree Seedlings at Reduced Rate

Trees For Tomorrow, a natural resources specialty school in Eagle River, is offering an end-of-the-season price reduction on tree seedlings. The 2-year-old seedlings are container-grown with well-established root systems.

Blue spruce and white spruce hybrids are available for 75¢ each, down from the original price of \$1.25. A limited number of cedar and white pine also are available for 75¢ each.

Money generated by the tree sales is used to provide scholarships for students to attend Trees For Tomorrow, an accredited nonprofit private school.

Seedlings may be ordered by calling 715-479-6456, ext. 221 or 226. They can be picked up locally from Trees For Tomorrow at 519 Sheridan Street East in Eagle River. A shipping and handling fee will be charged for orders that are shipped.

## NATURE NOTES • Frost by Peter Dring

Peter Dring is a naturalist, photographer, and was Director of the world renowned Little Red Schoolhouse Nature Center for nearly four decades.

In warm weather, on calm clear nights, the surface of the earth quickly cools as it radiates its heat up to the sky. Heavy cold air settles into every valley and depression. This surface layer of air becomes further cooled to the point where, if it is damp and the earth moist, it must lose some of its moisture and this is deposited on plants and other objects near the ground as "dew".

Under conditions otherwise favorable for dew but when the temperature goes below the freezing point, hoar frost forms. In late fall and early spring it usually appears as a white coating of fine ice needles, spine-like or feathery and sometimes as tiny flat six-sided flakes resembling snow crystals. Grass, weeds, shrubs and trees will be silvered with a delicate fur of frost. Sometimes when the air is too dry or windy for hoar frost to form but the temperature falls several degrees below 32 F., we have a "black frost" so called because many plants freeze and lat-

er turn black and limp when they are thawed out by the sun. Frost damage to a plant is not ordinarily caused by the frost crystals themselves, but by the freezing of the plant juices.

Frost helps keep soils loose and crumbly. Frost also plays an important part in splitting rocks and causing them to disintegrate into fine particles which, carried by wind and water, become part of the soil.

Windowpane patterns of frost, on a bitterly cold morning are beautiful, unique and never the same. With a good imagination you can see funny faces, beautiful landscapes, fairy castles or forests of towering ferns. Geometrical designs, a spider's web, tiny blossoms and leaves, or an intricate lace may be etched in gossamer lines that sparkle in the sunlight. Try blowing on such a frosty pane until your breath melts the crystals into a film of water, then move back and watch the frost reform a new design. The air in the room should be moist and various combinations of temperature and moisture affect the formation of the frost crystals, they also can be affected by the thickness of the glass, its structure and cleanliness.

Coming to your home soon!

## Photos, Fibers & Fire...

Three local artists will show their work in Photography, Quilt Art, and Pottery. Each is an emerging artist, pursuing their earlier artistic passions. Following the saying... "it's never too late".

Photographer, Gerald Urban of Conover, WI has rekindled his love of photography. Early in his career he received a degree in photography and worked as a photographer in the Milwaukee area. It was while taking a plane ride to do some aerial photos that Jerry thought flying was fascinating. This led to a 40 year career in flying. First for North Central Airlines (even coming

into Land O' Lakes Airport in the 1960's on the old DC-3) and then for 33 years with United Airlines, finishing his career as an International Captain on the 747. After retiring, raising lilies became a hobby which led him back to the camera. Starting with a simple point and shoot camera, Jerry was able to capture the beauty of these exotic plants using a classic style of photography in a close focus format. He is in the garden throughout the day to take advantage of natural light and is always searching for the perfect flower. Friends and family became interested in the work and soon Jerry was selling them in retail outlets and his first showing was in Eagle River at the Olson Memorial Library as Artist for the Month in August 2013.

Quilt artist, Terry Simeone is a resident of Land O' Lakes. While raising her family and being a homeschooling teacher, Terry was able to explore many art forms

while formatting educational workshops for other local homeschooling families. In more recent years she has focused on the art of quilting. Terry Simeone grew up in the northwest suburbs of Chicago and has lived in Land O' Lakes since 1987. Before moving here, she and her husband Bob lived and traveled in South America, working first in the Peace Corps in Paraguay and later working on a sustainable forestry project with indigenous communities in the Amazonian region of Peru. Terry's other artistic studies include dance and yoga. She

studied dance and psychology in college, and later received certification as a yoga teacher, specializing in yoga therapy. She has taught group and private yoga classes in Land O' Lakes since 2003. She is also a folk dance caller and has led dances for many local community events.

Potter Rita Kickert is also a resident of Land O' Lakes. While at an art festival, Rita was invited to try her hand at a potter's wheel. That simple act of feeling the clay and water together and then being able to make functional art, was all it took to get her to enroll

in pottery classes. Her first classes were with area potters in Berea, Kentucky. She was also taught by the artists at Arrowmont School for the Arts in Gatlinburg, TN. Rita has been studying this traditional craft for over 12 years now.

Rita creates functional pottery to enjoy in the home. Although she has exhibited her work, Rita's career as a teacher follows through with her art. She delights in teaching this craft and now she is asking others to try their hand at the

wheel. Demonstrating and giving others the opportunity to feel the fascinating exploration of clay and water fuels Rita to continue this ancient process but with an artist's eye. With her husband, Steve, Rita moved to Land O' Lakes in 2010. When not at her wheel, Rita continues to substitute teach in area schools and is a volunteer at the Land O' Lakes Library. She is also involved in the traditional art of folk dancing with her husband, who does calling for the dances.

As part of LOLA's 100 Days of Art, this show runs Thursday, Sept. 19-Saturday, Sept. 21. Hours for the exhibit will be, Thursday & Friday, 9:00 - 3:00 and Saturday from 9:00 to noon. It is being held at the Land O' Lakes Chamber of Commerce Building, located at Highway 45 and County Road B. There will be an artist's reception on Thursday, September 19 from 4:00 - 6:00 p.m. For more information call the LOLA office at 715-547-3950.
